

## **Remarks**

Applicant thanks the Examiner for the careful examination of this application and the clear explanation of the rejections.

The amended title conforms to the claimed matter.

The amended specification provides correct reference to the figures.

The pending claims obviate the rejections under 35 USC 101 and 103. The claims "particularly point out and distinctly claim the subject matter the applicant regards as his invention."

Amended claim 13 "ties" the claimed process to the operation of a WCDMA base station. This overcomes the rejection under 35 USC 101.

Depending claims 14-17 stand allowable as depending from allowable independent claim 13.

Claims 1-12 and 18-29 are canceled.

The application is in allowable form and the claims distinguish over the cited references. Applicant respectfully requests reconsideration or further examination of this application.

Respectfully Submitted,
